HISTORY OF THE DUROC-JERSEY SWINE

It seems to be well authenticated that the exact origin or early history of the Red Hog, now recorded as Duroc-Jerseys, is not positively known. Many are of the opinion that they are purely American bred, while we have gathered much information pointing toward stock that was imported at an early date, of which we will make mention later on in this work.

It is a fact now generally conceded by all who are interested in this popular breed of swine, that there were two families of them, some years ago, one known as Jersey Reds and the other as Durocs.

JERSEY REDS.

The name Jersey Reds was probably given to this family by Joseph B. Lyman, about thirty-three years ago, who at that time resided in New Jersey, and was the Agricultural Editor of the New York Tribune. Previous to this period they had been called Red Hogs. Mr. Lippincott, of New Jersey, was the first person to advertise these hogs as Jersey Reds.

We find in Clark Petit's History of Jersey Reds, that in the year of 1832, there was a pair of Red pigs shipped from Spain to Salem, New Jersey, and he says "that their unique color at once rendered them objects of special interest in a locality long noted for successful swine breeders and feeders, among whom had long existed a great spirit of rivalry, as to whom should annually win the honor of raising the best lot of hogs, making the greatest average weight at different ages, for which leading Philadelphia butchers paid advanced price." It was soon noticed that the offspring of the Reds universally proved to be quick, profitable feeders almost invariably outweighing those of other breeds at like ages. Much of the superiority undoubtedly arose from their pre-eminent constitutional vigor and consequent capacity to properly assimilate their food.

The hogs bred in New Jersey attained great size, as will appear from the following weights made at different ages:

30 hogs,	22 months old,	averaged.....	686	pounds, dressed.
18 hogs,	22 months old,	averaged.....	734	pounds, dressed.
23 hogs,	20 months old,	averaged.....	639½	pounds, dressed.
34 hogs,	17 months old,	averaged.....	565	pounds, dressed.
51 hogs,	17 months old,	averaged.....	520	pounds, dressed.
17 hogs,	months old,	averaged.....	862	pounds, dressed.
20 hogs,	.....	averaged.....	862	pounds, dressed.
20 hogs,	.....	averaged.....	882	pounds, dressed.
25 pigs,	8 months old,	averaged.....	413	pounds, dressed.
16 pigs,	7 months old,	averaged.....	278	pounds, dressed.
20 pigs,	6½ months old,	averaged.....	280	pounds, dressed.

This list could be much extended, but we deem this sufficient to show an idea of the size the Jersey Reds attained and the feeding qualities they possessed.

Twenty years ago, old men in Burlington and adjoining counties, New Jersey, could not remember a time when there were not Red Pigs, neither could they

tell where they came from. Mr. Brown, of Windsor, N. J., said he had seen them bred with uniformity of great size fifty years ago.

DUROCS.

In giving the history of this family of Red Hogs, we have no better authority than is given in Vol. 1 of our records and which is substantially as follows:

The Duroc family of Red Hogs were so called by Isaac Frink, a prominent farmer living in the town of Milton, Saratoga County, N. Y. In the spring of 1832, Mr. Frink took a mare to the noted stallion, Duroc, then owned by Harry Kelsey, in the town of Florida, Montgomery County, N. Y., about 25 miles away. There he saw a litter of ten red pigs, the production of a pair of red pigs brought the year before by Mr. Kelsey, from Oyster Bay, Queens County, N. Y., or imported by him from England. He moved from Oyster Bay to Florida. In regard to the importation of the pigs, the history is not authentic, although Mr. Kelsey told Mr. Frink that they were imported, but the term imported may have been improperly used, as is often the case, even at this late date.

In searching history we find that the produce of these pigs was much sought after, and assumed the name after Mr. Kelsey's famous horse, "Duroc." They spread all through the New England States, and became very popular on account of their great qualities, which we shall hereafter discuss.

In 1830, Wm. Ensign, of Wilbur's Basin, in the town of Stillwater, Saratoga County, N. Y., brought a pair of Red Pigs from Connecticut and the next year he got a few more from the same place. He bred and sold them far and near. Saratoga County was a lively "pork district" in those days, and great interest was taken in the breeding of hogs. The Frink and Ensign families of red hogs were crossed and the breed established. They have been bred ever since, with more or less care and effort at keeping them thoroughbred, but no fixed type or standard was followed (except individual ones). These hogs, according to what information we can gather, possessed most of the characteristics of the Jersey Red family, except they were not so large and were rather finer boned, and no doubt were quite profitable feeders and producers of pork.

Ex-President Thos. Bennett, of Rossville, Ill., furnishes us with some reliable evidence, which comes through a correspondence with the Hon. Cassius M. Clay, of White Hall, Ky. The honorable gentleman says: "The Spanish Red hogs were imported by Hon. James B. Clay, from Spain or Portugal, when minister to Lisbon, under Zach. Taylor in 1850. He gave me a pair of pigs the progeny of which I widely distributed, they being such very fine hogs, easily fattened, and the best hog known at that time. Being such noted hogs, it is no wonder they found their way to New York, New Jersey and all eastern and southeastern states."

It is not saying too much when we (the Red Hog breeders), say that they were the foundation stock of that most popular breed of swine, "Poland-Chinas." The Hon. L. N. Bonham, in one of his histories of said breed, in searching to find out how they came to be named "Poland-Chinas," says that "there was an old Polander who had a herd of very fine hogs, said hogs were the produce from a China sow and a Jersey Red boar. So admired were they, and so noted did they become, that they were named after the breeder (Polander), and the sow (China), hence the name Poland-China. It is a fact that the Poland-China, years ago, had red or sandy spots on them, and not very small ones either, and even at the present time some of the best pedigreed Chinas breed sandy spots." Mr. Bennett says: "In the fall of 1889, I went to see one of the best herd of Poland-Chinas in Illinois, and there saw a

boar good enough for any one. He was bred in Ohio and bought at a big price. As I was looking him over, the proprietor said: 'There is only one fault with that hog,' 'What is that?' I asked, and in reply he said: 'Some of his pigs have sandy spots on them.' This is no doubt due to the fact that, after years of careful breeding, the old characteristics will continue to crop out."

The general appearance of Duroc-Jersey swine has been much changed in the hands of our western breeders, as will be seen by the late standard adopted by the National Expert Association, at Dayton, Ohio, in February, 1889, and by the American Duroc-Jersey Association in the following November. The breed still possesses many of their old-time characteristics, which make them so popular, and as breeders they are doubtless the most prolific of any breed of swine in existence. Young sows usually farrow from eight to ten pigs at a litter, and from ten to eighteen is not uncommon for old sows. The pigs are very strong at birth, and the sows and pigs very seldom need any attention at this time. They almost invariably impart to their offspring their wonderfully prolific breeding qualities, are good quiet mothers, supplied with a generous flow of milk, raise large even litters, and other breeds when crossed with them are greatly improved in vigor and as breeders and feeders.

Below we give some extracts from a test at the Experiment Station of the Agricultural College at Michigan.

The breeds represented were the Duroc-Jersey, the Berkshire and the Poland-China, two of each and all barrows.

The pigs were weighed every fourteen days during the experiment and the gains or losses noted and compared with the food for the period, viz.: from July 16, 1889, to Jaunary 31, 1890—168 days.

It was seen that the two Duroc-Jerseys gained in weight from the beginning. Though as fleshy as any specimens, they were still making excellent gains and were feeding well at time of slaughter. Their average gain was 36.25 pounds per period, or 2.59 pounds per day, secured at a cost of 4.65 pounds of grain for each pound of gain in live weight.

The average gain made by the two Berkshires was 29.16 pounds per period, or 2.11 pounds per day secured at a cost of 5.22 pounds of feed for each pound of gain.

The average gain per period of the Poland-Chinas was 25.91 or 1.85 pounds per day, secured at cost of 5.87 pounds of feed for one pound of gain.

The meat of the different breeds was cooked and tested, and it was the unanimous opinion of those who ate of the meat that that from the pigs making the best gains at the time of slaughter was the most tender and juicy, the sweetest and best. This was the pork of the Duroc-Jersey.

In competition with other breeds in the show ring in a very large majority of cases, the Duroc has come off the winner. Notably at the Illinois State Fair, twice within the past three years a pair of Durocs has won the premium offered by a well known wagon company, all breeds being in the contest.

At the nearest calculation 75 per cent. of the hogs reaching the principal hog centers carry the "red blood," that is, are Durocs or Duroc blood predominates.

More than 75 per cent. of the public swine sales are sales of Durocs. which shows the spirit of enterprise that is backing up the breed.

No breed of swine has been brought to its present perfection, in so short a time as the Duroc, and no hog is as popular with the breeder, the feeder or the packer as is the Red Hog.

Do you want the kind that grows right and sells right? Then breed the Durocs.

MINUTES OF THE MEETING

OF THE

NATIONAL DUROC-JERSEY RECORD ASSOCIATION

HELD AT

OFFICES OF THE ASSOCIATION

IN

PEORIA, ILLINOIS, JUNE 6TH, 1911

The board of directors of the National Duroc-Jersey Record Association met June 6, 1911, in the office of the association at Peoria, Illinois.

Members present: R. L. Comer, R. J. Harding, Ed Edmonson, H. S. Allen, Gilbert Van Patten, J. J. McLain, Tom Frazier. President Tom Frazier presided.

The chairman of the executive committee, R. J. Harding, presented the following report of that committee, which is attached to the minutes as exhibit "A":

We, the executive committee of the board of directors of the National Duroc-Jersey Record Association, have considered the following complaints, and wish to submit to the board of directors the following report:

Regarding the matter of pedigree for Miss Climax Wonder 277452, we instructed Secretary Pfander to write J. M. Young, Fall River, Kansas, that should he, in the future sign pedigrees for some other party without their authorized consent, or make out pedigrees and sign them when the animal for which the pedigrees given was not bred by or farrowed his property that he, J. M. Young, will be debarred from the use of this record.

We also instructed Secretary Pfander to record no more pedigrees for J. M. Young, Fall River, Kansas, at stockholder's rates until he produces his certificate of membership in this association or purchases a share of stock in the association.

We also instructed Secretary Pfander to write George W. Schwab, Clay Center, Neb., that we have considered the correspondence before us, between Mr. Welch and George W. Schwab, and we require that Mr. Schwab furnish pedigree to Mr. Welch at once, or he will be debarred from the use of the record.

(Signed) R. J. HARDING, Chairman of Executive Committee.

We, the executive committee of the National Duroc-Jersey Record Association, have examined the books and accounts of the secretary and treasurer from December 1, 1910, to June 1, 1911, and find them correct.

(Signed) R. J. HARDING,
J. J. McLAIN,
G. VAN PATTEN.

On motion by Mr. Comer and seconded by Mr. Edmonson the report of the executive committee was accepted.

Treasurer E. Z. Russell's report is as follows:

On December 1, 1910, our balance was $7,718.46; warrants drawn since December 1st until June 1st, $12,106.96: receipts during same period, $15,454.10, leaving a balance of $11,856.40. In explanation of this report will say that the immediate business not included in the balance as shown by the statement is $1,169.99, the May remittance, making a total of $13,026.39. To be deducted from this amount is $2,000 loaned on real estate, making a balance of $11,026.39. On June 2d warrants were isued for printing and postage on Vol. 38, and salaries, expenses, etc., for May amounting to $3,965.81; by deducting this from the above balance our true balance to date would be $7,060.59.

(Signed) E. Z. RUSSELL.

The following statement from the Citizens State Bank of Blair, Neb., where the association funds are deposited, was read:

I hereby certify that the above and foregoing is the true and correct statement of the account of the National Duroc-Jersey Record Association, as shown by the books of this bank, and that said amount is to the credit of said Association in this Bank. Said account shows all deposits between the dates mentioned and all vouchers paid against said account, which vouchers are herewith returned, to the close of business, May 31, 1911.

(Signed) CITIZENS STATE BANK,
Per B. MUMMERT, Cashier.

Motion was moved and seconded that the report of the treasurer be accepted.

The following is the report of the secretary:

The receipts of the office from December 1, 1910, to June 1, 1911, from all sources, is $14,158.13. Our expenditures up to date were $12,106.96, leaving a balance of $2,051.17 to the credit of this six month's business. In explanation of this condition will say that since December 1, 1910, we have paid for printing 7,305 pedigrees of Vol. 36, 9,098 pedigrees of Vol. 37, and 9,547 pedigrees of Vol. 38, making a total of 25, 951 pedigrees. During this same period of time we have recorded 15,794 pedigrees. Thus we have paid for printing in the herd books 10,247 pedigrees more than we have recorded during this period; at the average cost such printing would amount to $2,049.40, so in reality the last six month's business should show a credit of $5,100.57. Our printing for herd books is all paid up to date except approximately 5,000 pedigrees, filed in Vol. 39.

Since December 1st the office help have read every page of proof for Vols. 37 and 38, which no doubt prevented many errors in these herd books.

(Signed) J. R. PFANDER, Secretary.

On motion by Mr. Van Patten, seconded by Mr. Harding, report of secretary was accepted.

The treasurer further reports having purchased for the association with the association funds, since December 1, 1911, the following first mortgage loans on improved farm lands in Washington county, Nebraska: $500 loan on 40 acres owned by Mary Gloede, dated February 15, 1911, 5 years, at 6 per cent interest, payable annually, $3,500 on 160 acres owned by Wm. D. Hughes, dated March 18, 1911, running 5 years, at 6 per cent interest, payable annually; $2,000 on 160 acres owned by Ella C. Maher, dated June 1, 1911, 6 per cent interest, payable annually. The Gloede land worth $75 an acre, 9 miles from Blair, Neb.; Hughes land worth $80 an acre, 2 miles from Blair, Neb.; Maher land worth $80 to $90 an acre, 4 miles from Blair, Neb.

Bids for supply printing were opened by the secretary, and after the board gave them consideration, motion was made and seconded to award the following orders to J. W. Franks & Son, their bid being the lowest, for 20,000 No. 10 XXX full dress envelopes, $82,50; 2.000 6½-inch XXX full dress envelopes, $8; 30,000 engraved pedigree certificates on 20-lb Archive paper, $90.

Motion moved and seconded that secretary be instructed to buy Roneo copying machine.

Motion moved and seconded that the secretary purchase 1,000 National Herd Registers for $300.

Motion moved and seconded that president and secretary be instructed to enter into contract with the Jefferson Safe Deposit Company for the lease of three rooms in the Jefferson building at a rate of $60 per month, for a term of five years, with the option of our getting the lease extended to ten years at a 10 per cent increase after five years if all other tenants in said building are asked for this said rate of increase, providing that the Jefferson Safe Deposit Company assumes the unexpired portion of our present lease in present location.

Motion moved and seconded that commencing with Vol. 40, Roman numerals as name numbers be abolished, and Arabic numbers be used, as 2d, 3d, 4th, 5th, etc.

Motion moved and seconded that the treasurer be instructed to place $6,000 of the funds of the Association on deposit with the Citizens Trust and Savings Bank of Blair, Neb., that $5,000 of this amount be placed on first mortgages on real estate as soon as possible, with the approval of the president. That whenever $1,000 of the association funds can be spared from our checking account, the same should be placed in the Savings bank, and that when $3,000 or more funds be on hand, $1,000 or more shall, as soon as possible, be loaned on first mortgage loans as above directed.

Motion carried that secretary be allowed not to exceed $1,500 for clerk hire from June 1, 1911, to December 1, 1911.

Motion made and seconded that all pedigrees be published in herd book, as per style of Vol. 38.

Motion made and seconded that it is desired by the board of directors that members of the association use the same style of proxy for 1911 annual meeting as was mailed out by the association to members for the 1910 annual meeting. Such proxy to be mailed out to the stockholders by the secretary, with notice for call of annual meeting.

Suggested by the board that the secretary attend the 1911 state fairs at Illinois, Indiana and Kentucky in the interest of the association.

Motion made and seconded that secretary transfer association account to the Interstate Bank & Trust Co., Peoria, requiring an indemnity bond of $5,000.

Motion made and seconded that secretary be allowed not to exceed $250 for new office furniture, with instructions to trade in such old equipment as possible.

No further business appearing before the board, they adjourned, subject to the call of the president.

TOM FRAZIER, President.
J. R. PFANDER, Secretary.
